## B. PLANNING & CONSTRUCTION

1. On April 9, 1918 the Board of Trustees approved the plans and related documents prepared by Joseph N. Bradford, and reviewed the bids which had been received and awarded contracts to the following Contractors:

General: D.W. McGrath

Electrical: McMaster Electric Company

Plumbing, sewer and heating: William H. Conklin Company

2. This building was constructed under war-time conditions to meet the needs of the School of Military Aeronautics on campus, and the whole process of planning, bidding, and awarding contracts was compressed. The Board authorized the project on March 5, 1918 and contracts were awarded only five weeks later.

### 3. Completion and occupancy:

The final estimate on this project was dated July 31, 1919 (A), but the Lantern on June 28, 1918 reported that the building would be completed about July 15. The latter is probably closer to the actual date of use. but proof is not readily available.

## C. COST

Contracts awarded April 9, 1918 totaled \$21,512 (McC 3:141).

## D. DEMOLITION

Cabinet on June 25, 1945 instructed the Director of Physical Plant (Mr. Elleman) to tear down the building.

## F. MISCELLANEOUS

1. The building was constructed for the School of Military Aeronautics in World War I. After the War, it became the Maternity Division of the Homeopathic Hospital (L January 11, 1921).

2. When the teaching of homeopathic medicine was discontinued, the building became the Isolation Hospital.

3. In the late 1930's, the building was remodeled. Mr. Elleman reported to Cabinet on January 12, 1939 that

the remodeling had been completed. Among the users at that time were the Department of Bacteriology and the Department of Agricultural Biochemistry.
